WAREHOUSES
Essentials

Lesson 4 Objectives

4.1   Using the Snowflake WebUI, create a warehouse.

4.2   Given a worksheet, use the context menu to set the warehouse context of that worksheet so that is uses a specified warehouse for processing.

4.3   Use a SQL script to set the warehouse listed in the context menu of a worksheet.

4.4   Turn on the Code Highlight feature and use it in conjunction with the All Queries check box to run single statements or entire worksheets of statements as needed.
